

VAST MANAGEMENT CORP Capability Statement

VAST Management Corp delivers CISO-level Governance, Risk, and Compliance (GRC) consulting, AI governance, and IT project management to federal, state, local, tribal, and territorial agencies. Through our fractional vCISO model, we provide cybersecurity strategy, risk management, compliance readiness, and federal AI governance and workforce training, all for a fraction of the cost of a full-time CISO.

Core Competencies

AI Governance, Strategy, & Security

- NIST AI RMF & ISO/IEC 42001 Implementation
- OMB M-25-21 & M-25-22 Compliance & AI Use-Case Inventory
- AI Policy, Acceptable Use & Ethics Frameworks
- AI Vendor & Model Risk Assessments

AI Governance Training & Workforce Development

- Ten-Course Self-Paced Federal AI Governance Series
- Every course operationalizes the current EO, NIST, FISMA, FedRAMP authorities, and more
- Companion Study Guides

Cybersecurity Governance & Strategy

- Fractional / Virtual CISO (vCISO) Advisory
- Cybersecurity Strategy & Roadmap Development
- Cybersecurity Policy & Standards Development
- Security Governance Board Facilitation
- Executive & Board-Level Cyber Risk Reporting

Compliance, Risk Management & Assessment

- Enterprise Cyber Risk Management Programs
- NIST RMF Implementation & ATO Support
- C-SCRM & Third-Party Risk (NIST SP 800-161)
- Plan of Action & Milestones (POA&M) Management
- FISMA, FedRAMP & StateRAMP Readiness
- NIST SP 800-53 & NIST CSF Control Assessments

FedRAMP Advisory

- FedRAMP & StateRAMP Package Development
- System Security Plan (SSP) & Boundary Documentation
- 3PAO Coordination & Assessment Support
- Cloud Security Architecture & SaaS Risk Reviews

Security Program Development

- FISMA-Aligned Information Security Program Build-Out
- Zero Trust Architecture Strategy (OMB M-22-09)
- ICAM & PIV/CAC-Aligned Identity Governance

Incident Response & Resilience

- Incident Response Plan Development & Testing
- Tabletop Exercises & Crisis Simulations
- Business Continuity & Disaster Recovery Planning
- Breach Notification & CISA / CIRCIA Coordination

Cybersecurity Workforce & Knowledge Transfer

- NICE Framework-Aligned Role-Based Training
- Annual Security Awareness Program Development
- Executive & Senior Leader Cyber Briefings
- Internal Security Team Coaching & Knowledge Transfer

IT Project & Program Management

- PMP-Aligned IT Project & Program Management
- Agile, SAFe & Waterfall Delivery Methodologies
- Earned Value Management (EVM) & Schedule Risk Analysis

Company Snapshot

President & CEO: Dr. Noel G. Alexander

Phone: 516-449-7411

Website: <https://vastmanagementcorp.com/government/>

Business Established: 2003

Cage Code: 20SA4

Unique Entity ID: ZKH3ZV6L4JK4

FEIN: 20-0312439

Professional Certifications

- Certified Chief Information Security Officer (C|CISO)
- Certified Information Systems Security Professional (CISSP)
- Project Management Professional (PMP)
- Certified Professional Coach (CPC)

Licensed Reseller

[CodeWeTrust's c2m](#) is an AI-powered source code analysis and software a risk-compliance intelligence platform that helps organizations identify technical debt, security vulnerabilities, code quality issues, open-source licensing risks, and software maintainability concerns across their application portfolio. The c2m platform enables organizations to address compliance requirements and make informed decisions throughout the SDLC.

NAICS Codes

- 611430** — Professional & Management Development Training
- 611420** — Computer Training

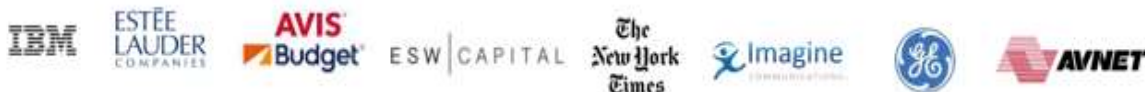

Veteran Certifications

Differentiators

- **Executive-Level Leadership** — Doctoral-level CISO delivering end-to-end GRC depth across federal, commercial, and global enterprises.
- **Fractional vCISO Model** — Full CISO expertise and strategic depth at a fraction of the cost of a full-time hire.
- **Emerging AI Governance** — Advisory leadership on NIST AI RMF, ISO/IEC 42001, and OMB M-25-21 / M-25-22 implementation.
- **VAST's AIGRF Instrument** — A deterministic 84-control, 14-domain AI governance assessment that produces an auditable risk Index (ARI, 0 to 100). Every control map to binding federal authority (EO 14179, the OMB AI memos, the NIST AI RMF, and the 800-series), giving an authorizing official a reproducible score, not a consultant opinion.

Past Performance Clients and Organizations Served

Federal Frameworks: NIST AI RMF · NIST SP 800-53 · OMB M-25-21 / M-25-22 · FISMA · FedRAMP · StateRAMP · EO 14179 · EO 14028 · CIRCIA
